

Company Presentation

October 2021

Profile

VSM is manufacturing company, founded in 2008 in Izmir-Turkey with a vision of fulfilling high quality product & service expectations of international and domestic investments located in the region. Company operated in the field of automotive, energy & construction.

In recent years, our automotive business has grown dramatically due to stronger cooperation with our global OE partners and for some customers this reached a level of multi-plant supply to different locations worldwide.
